Dear Sirs;

We are writing in regards to Docket #09-035-54. RMP routing through Tooele Valley. We are definitely opposed to any of these power lines coming through any of the City of Tooele, Utah. We feel that there are many different routes through non-populace areas that could be used. RMP have chosen absolutely the most populace areas and our most visible and beautiful Mountain range in our county to ruin and maim.

We as a large group of 4000 people have signed petitions in protest to this project. Our chosen committee, the city heads and county commissioners have stood up to let them know we will not support them or sign permits for the project as is. Our committee and many of us have offered them valid alternatives, as asked by them, to use which has been studied carefully by experts in many fields to be better alternatives technically. Where do we turn to now? You our elected officials are our last resort. Save our county. We have turned our heads too many project brought to this county.

We cannot sit idly by while these monstrosity of lines and this monster of a company come in a build these overwhelming lines. Please consider our plea.

Sincerely
Gary & Colleen England

Gary & Colleen England
Tooele, ut.
