

Dear Homeowner,

Were you aware that Questar Gas and Rocky Mountain Power are offering rebates to upgrade your attic insulation? In addition, the new US Economic Stimulus Plan has added energy tax credits for homeowners who upgrade their attic insulation. Adding more insulation to your home significantly reduces your heating and air conditioning expenses.

If your home qualifies, the rebates and tax credits will greatly reduce your costs. **In some cases customers actually end up with cash in their pocket!** For example, please review the cost analysis below for an average attic space of 1200 square feet. In this example, Sunroc would be adding an 8" layer of high performance fiberglass insulation.

<u>Example Only</u>	Example 1 (8" R-19) <i>(When you qualify for <u>one</u> rebate)</i>	Example 2 (8" R-19) <i>(When you qualify for <u>two</u> rebates)</i>
Material and labor costs=	\$660.00	\$660.00
Estimated Amount of Questar Gas Rebate= <i>(Rebate is .35 cents per Sq. Ft.) Amount not Limited</i>	\$420.00	\$420.00
Estimated Amount of Rocky Mountain Power Rebate= <i>(Rebate is .35 cents per Sq. Ft.) Amount not limited</i>	\$0.00	\$420.00
Estimated Amount of Federal Tax Credit= <i>(Credit is 30% of material cost) Up to \$1500</i>	\$168.00	\$168.00
<b>Out of Pocket Cost after Utility Company Rebates And Federal Tax Credit=</b>	<b>\$72.00</b>	<b>+ \$348.00</b> <b>Yes! You Make \$348.00!</b>

Your Sunroc representative will inspect your attic insulation levels and verify your eligibility for each rebate at the time of your appointment. **\*Please note that the current rebates are under review and could drop 15 to 25 cents per square foot in the near future.**

Sunroc will assist you in completing all necessary paperwork to obtain your rebates. \*Most customers will qualify for the Questar Gas rebate. Special conditions apply to the Rocky Mountain Power rebate.

Sunroc will be scheduling **free** evaluations in your neighborhood over the next thirty days. If you would like to participate in this offer, please contact our office Monday-Friday 8:00 am to 8:00 pm. or Saturday 9:00 am to 2:00 pm.

**Please call toll free at (877) 777-0192 — Ask for Retro Services**

Thank you,

Dave Orgill  
Sunroc Retrofit Division  
Program Director

 **CLYDE COMPANIES**

*Sunroc is proud to be a part of the Clyde Companies family*

P.S. Ask your Sunroc representative about other energy saving measures installed by Sunroc, such as dual pane vinyl windows and energy rated entry doors. Rebates and tax credits are available for these items as well.

# ThermWise<sup>SM</sup> Weatherization Rebates Application

**IMPORTANT:** Please read this application carefully. It is the applicant's responsibility to complete the application and submit it with the required supporting documentation. Rebates are available only for customers living in EXISTING single-family dwellings (not newly constructed homes) of up to and including four units, where measures are installed prior to requesting a rebate. Application must be signed by customer holding Questar Gas account, even if rebate is to be assigned. Rebates will not be paid for ineligible or incomplete applications.

## 2008 Home Energy Savings Program Insulation Incentive Application

**Insulation requirements:**

- Home must have an electric heating system or central air conditioning or heat pump serving 80 percent of the home (ducted unitary cooling equipment).
- Newly constructed homes do not qualify because they are already meeting insulation requirements in current building code. Incentives apply to building envelope only. Remodeling projects may not qualify if the upgrade requires a building permit. Unheated spaces, such as a garage, do not qualify.
- Pre-existing insulation levels must be nonexistent, or R-10 or less in walls and R-18 or less in floors and attics.
- Insulation may be installed by the customer or contractor. Self-installers are eligible for incentives on materials only.
- We recommend insulating to highest R-Value possible. Minimum R-Values must be installed to qualify for incentive.
  - Walls – Add R-11+ or fill cavity. (Interior walls, such as walls between rooms, do not qualify.)
  - Floors/Attic – Add R-19 or greater.
- Insulation must be installed and both invoice and proof of payment are required. Work may be inspected.

**How to receive your incentive:**

1. Purchase and install a qualified product or service. For questions about what products or services qualify, visit [www.rockymountainpower.net/hes](http://www.rockymountainpower.net/hes) or call 1-800-942-0266.
2. Complete all of the information requested on this form. Incomplete forms may be delayed or denied.
3. Review and sign the acceptance of terms. Make a copy for your records.
4. Mail completed form with all required documentation to: **Rocky Mountain Power – Home Energy Savings program**  
1400 SW Fifth Avenue, Suite 700, Portland, OR 97201

**Required documentation for insulation includes:**

- ✓ Itemized receipt/contractor invoice that clearly indicates square footage for each area, insulation type and R-Values for insulation installed, itemized costs and purchase and installation dates
- ✓ Proof of payment (copy of cancelled check or charge receipt)

# CLYDE COMPANIES

*Building a Better Community for Over Eighty Years*

In 1926 W.W. Clyde & Co. began as a business focused on building roads in Utah after World War I, and has now evolved into a company specializing in a variety of construction services, including transportation, mining and reclamation, site development, and aggregate processing.

Since 1954 Geneva Rock has been a top supplier of ready mixed concrete, sand and gravel, asphalt, and construction services along the Wasatch front. Geneva Rock has a history of providing quality products, friendly service, and a level of professionalism that still exists today.

Since 1938 Sunroc has succeeded by building solid relationships with customers in the retail and construction industries. Sunroc offers garage doors, insulation, lumber, trusses, decks and custom doors, as well as concrete, windows, and roofing materials. Sunroc has long supported the professional contractor, project oriented consumers, and the do-it-yourselfer.

Beehive Insurance is a full-service, independent insurance agency established in 1961. Beehive offers customers a wide selection of superior and affordable insurance products including property, general liability, workers compensation and surety bonds. Beehive is a company built on strength, security and solutions.

Since the early 1970's Gorge Rock has been delivering a variety of concrete mix designs, admixtures, and reinforcing products to meet the requirements of commercial, industrial, and residential construction projects. Gorge Rock developed a reputation for quality, dependability, and unsurpassed service.

Clements Concrete has provided ready-mixed concrete and sand and gravel products in the Boise Idaho market since the 1940's. Clements has been a leading provider of concrete products with a reputation for service and quality.
