Keith O. Rattie  
Chairman, President and CEO  
Questar Corporation  
180 East 100 South  
PO Box 45433  
Salt Lake City, Utah 84145

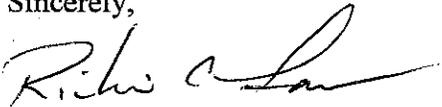

Dear Mr. Rattie:

As per Governor John Huntsman's urging, I recently purchased a 2002 Chevrolet Cavalier powered by compressed natural gas (CNG). I am excited that I can do my part to help the environment and I am grateful to Questar for providing a quality source of CNG at a great price.

It is my hope that Questar will continue to provide the growing number of CNG vehicles with their clean, green and affordable fuel. I would urge Questar to continue to invest in upgrading and building more stations. To that end, I would suggest that Questar petition the PSC to use the 50 cent per gallon federal excise tax credit for the refueling infrastructure needs and not pass it on to the consumer.

I would like to offer my help in writing to our elected officials in support of Questar's initiatives for exploration and delivery of natural gas to the consumer.

Sincerely,

Rickie A. Farr
