Subject: questar gas MISTAKE, rate pass along

To the Public Service Commission

I would like to formally make known my Objection to being billed for for gas that I have not used.

It is sad when a company has a monopoly and pressed is weight on customers that virtually have no choice to find another provider.

I feel that the company should work out their mistake with the customers that Quest star gas has a grievance with.

No other company that was in competition for customers would ever treat their customers as we have been treated.

I would be happy to discuss further my feelings on this matter.

Frank Scott
