Below is an inquiry which was received by the Governor's Office of Constituent Services on 12/30/2008. Please respond directly to the constituent and reply to this email with a copy of your response by 1/13/2009.

Cindy Lou Stokes

SUBJECT:

RE: "DOCKET NO. 07-057-13" In the Matter of the Application of Questar Gas Company to Increase Distribution Non-Gas Rates and Charges to Make Tariff Modifications. As Filed by the Commission on Monday, December 22, 2008

My family and I have made the commitment to purchase a Natural Gas Vehicle for two main reasons. First, to do our small part in reducing the amount of pollution we would otherwise be responsible for. Second, we have come to rely upon the low cost natural gas that the Mountain West enjoys because it's a local resource. The rate hike this ruling will cause will be a major blow to the viability of natural gas as a clean alternative fuel and it will increase our dependence on foreign oil. Questar is my only source for the only fuel my car runs on. There is no competition to keep the prices fair. This is the wrong course of action in tough economic times when the Natural Gas Vehicle community relies upon and I personally need a low cost alternative to gasoline. I have kept this message brief and I look forward to a more detailed dialog on this issue.
